REPLY OF HASKELL

Governor Denies Hearst's Standard Oil Charges.

NO PARTY TO NEGOTIATIONS

Assertion that I Had Anything To Do With the Standard Oil Company Is Absolutely False," Says Haskell—He Speaks of Affidavit.

Chicago, Sept. 21.—In the face of the assertion of Mr. Hearst at St. Louis that an affidavit, signed by F. M. Monnett, former attorney general of Ohio, identified Governor C. N. Haskell, of Oklahoma, as having been a party to Standard Oil negotiations, Governor Haskell Saturday declared the statements were absolutely false.

"The assertion that I had anything to do with the Standard Oil company is absolutely false," said Governor Haskell. On the day the affidavit is said to have been signed, Sept. 12, 1908, Mr. Monnett was in Oklahoma City and on that day made a speech in which he exonerated me from all connection with the Standard Oil matter. It is unbelievable that any man would make such a speech and on the same day sign an affidavit stating the contrary thing. There is no truth in the charges."

CLEVER GIRL THIEF.

Under Very Eyes of Mistress Walked Off with \$5,000 in Jewelry.

Philadelphia, Sept. 21.—Under the very eyes of her mistress, who suspected nothing, a clever servant girl thief walked out of the house of John B. Marsden, in West Philadelphia, with an apron full of jewels valued at \$5,000.

The girl came to Mrs. Marsden on Thursday and applied for a position as a domestic. She gave her name as Mary Kelly. Mrs. Marsden engaged her and she began to work immediately. As Mrs. Marsden stood on the porch Friday seeing her son off to school, the girl, dressed in street attire, passed out of the house. Mrs. Marsden noticed the apron tied in a bundle under her arm and asked her where she was going. She said she was going to post a letter.

As time passed and the girl did not appear, Mrs. Marsden went up stairs and examined the safe, finding that all the jewelry was gone.

MISSING SHIP REPORTED.

Atlanta Woman One of the Passengers of Steamer Acon.

Victoria, British Columbia, Sept. 21.—The missing British steamer Acon which sailed on July 26 from San Francisco for Sydney, Australia, was heard from Friday.

A brief cable dispatch reached Seattle, the terminus of the Pacific cable on Vancouver Island, from Tanning Island, saying that the passengers of the Acon were safe at Christmas Island. The word came from Captain Cowrie, of the Acon, who had arrived at Fanning Island, but contained no details as to whether the Acon was wrecked or simply delayed because of an accident to her machinery.

It is supposed, however, that the ship's machinery was disabled and that the vessel drifted to the island in safety.

Mrs. Nettie Riddle, wife of Lieutenant Riddle of the navy, and formerly of Atlanta, is among the passengers of the Acon.

Peruvian Situation Perilous.

Paris, Sept. 21.—The situation here is perilous. The situation here is on the point of becoming a civil war. The nationalists refuse to allow certain foreign residents to depart.

Many Students Enrolled.

Columbus, Ga., Sept. 21.—The number of school tickets issued for the public schools of Columbus has reached nearly 1,000. It is expected to go beyond this number.

BUYS ATLANTIC TELEGRAPH.

Official Announcement by President Sellers of the Telepost.

New York, Sept. 21.—By purchasing control of the Atlantic Telegraph company the new telegraph company, the Telepost, has acquired the use of a working line over 150 miles long, from Boston to Portland, Me.

President H. Lee Sellers of the Telepost company made the following announcement:

"It is true that we have acquired control of the Atlantic lines from Boston to Portland and will immediately install our rapid automatic system of telegraphy on this line, accepting business at our uniform rate of 25 cents for twenty-five words, 5 cents for each additional ten words. The Western Union's Boston-Portland rate is 30 cents for ten words."

"Our Boston-Portland service will be an object lesson in the possibilities of 1,000 words a minute telegraphy at lower rates than the public has ever dreamed of. Mr. Delany's invention, which we control exclusively, introduces a new era in wire transmission, both in respect to speed and economy. We are able to utilize the full capacity of the wires by machines which send and receive at speeds of 1,000 words a minute. The old wire companies are limited by hand transmission to a small fraction of this speed. That is the explanation of the superiority of the Telepost system and of our lower rates."

"Portland will be the starting point westward of our transcontinental trunk line, on which we are actively at work. Our plans for the opening up of other territories are well advanced, but we are not now ready to announce details. The fulfillment of these plans however, will soon become evident to the public, just as in the case of the Atlantic lines, when all our arrangements are completed."

"The Atlantic lines touch Lowell, Lawrence and other Massachusetts cities, besides Dover and Portsmouth, N. H., and several Maine towns. We shall have five offices in Boston and expect to get more than our share of the 10,000 messages that pass daily between Portland and Boston."

HAS MARRIED 900 COUPLES.

That is the Record of Pastor of a Jersey City Church.

New York, Sept. 21.—The Rev. Gottlieb Andrea, pastor of the German Reformed church, Jersey City, will perform his one thousandth wedding ceremony next Wednesday.

Mr. Andrea is said to have officiated at more weddings than any other minister in New Jersey. The fees that he has received are said to have paid the tuition expenses and board of his son and daughter at college. He has been pastor of the church for about twenty-five years.

Believed To Be Man Wanted.

San Jose, Calif., Sept. 21.—Sheriff Langford and District Attorney Free went to Sacramento Friday night to secure requisition papers from the governor for the extradition of William Hatfield, who is believed to be J. C. Dunham, the man who killed six persons near Campbell, twelve years ago. Sheriff Langford and a deputy will leave on Sunday for Sherman, Tex., where Hatfield is being held.

Thirteen Cholera Deaths.

Amboy, China, Sept. 21.—The active cholera hospital reports a total of thirteen deaths from cholera for the ten days ending Thursday. Eight of the leading native physicians of Amboy report that they treated only two cholera cases in the same period time. The total of deaths from all cases in Amboy Thursday was seven.

Births at the Zoo.

Chicago, Sept. 21.—The Lincoln Park zoo has been increased by the birth of two leopards. Keeper De Vry is highly pleased, as he says he has established a world's record for three months in births, twelve animals having been born in that time. Last week two jaguars were born, while eight lions have been born during the last three months.

IN GRIP OF DROUGHT

Eastern Pennsylvania Suffering From Worst In Years.

PAY FOR DRINKING WATER

Forest Fires Burning in Some Sections and Several Localities Report Danger to Crops Unless Rain Comes Very Soon.

Philadelphia, Sept. 21.—Practically the entire state of Pennsylvania, east of the Allegheny mountains, is suffering from one of the worst droughts in years.

In some parts of the state no rain has fallen in more than two months, and rivers and streams are so low that many industries have been interfered with and in some instances the plants have been shut down for the lack of water.

Forest fires are burning in several sections and some localities report that crops will be entirely ruined unless rain comes very soon.

At Shenandoah, in the anthracite coal regions, water sells at eight cents a gallon and many are compelled to walk three and four miles to get a supply even at that price.

Several coal mines in the region have been closed because of lack of water.

WHERE HAS THE MONEY GONE?

Mercantile Securities Company in the Hands of a Receiver.

Chicago, Sept. 21.—A concern in Chicago which has had twenty months of life, and which has sold \$1,250,000 of preferred stock to people all over the country at a price to yield a million and a half or more, went into a receiver's hands Friday.

The receiver at once called on the officers of the company to turn over the assets. He got some engraved certificates of stock in Allied and Subsidiary Companies, and \$319.50 in cash.

The receiver will try to find where the other \$1,459,686.08 has gone, for he does not attach value to the certificates.

The concern, which has had this thrilling existence, is the Mercantile Securities company, second in the chain of the Rhodus Brothers' high finance corporations. John C. Felzer is the receiver. He is also receiver for the Central Life Securities company.

SOLD COTTON IN BULK.

Colquitt County Farmers Organize a New Scheme for Selling.

Moultrie, Ga., Sept. 21.—The members of the Farmers' union in this county, who have inaugurated a scheme of selling their cotton in bulk to exporters, had their first sale day here Thursday. The sale was entirely satisfactory to the officers of the union and similar sales will be held each Thursday.

A hundred or more small farmers were here with cotton and the wagon receipts at the warehouse were nearly 700 bales. There were a number of out of town buyers here by invitation and the cotton was sampled, put in a lot and sold to the highest bidder. The prices received was very satisfactory to the sellers.

Socialist Nominations.

Montgomery, Ala., Sept. 21.—The following nominees for electors for the socialists in the state have been filed with Secretary of State Frank N. Julian: C. H. Hatchinson, Moultrie; J. W. Hendrick, Bay Minette; D. E. Morgan, Phenix City; O. L. Stuchlor, Wetzel; A. C. Atkinson, Woodbine; W. F. McIlwain, York; J. R. Camp, Center; John Phillips, Denmar; F. L. Emil, Bessemer. At large, James Brown, Hinton; J. W. Abbott, Sheffield. Emil is also the nominee for congress in the sixth district.

NOMINEES STILL TO MEET.

Hitch in the Chicago Program Now Appears To Be Arranged.

Chicago, Sept. 21.—Judge Taft and W. J. Bryan will meet at the Chicago Association of Commerce banquet in this city Oct. 7 after all, according to an announcement made by Chairman Dixon, of the republican speakers' bureau.

It is possible that the two presidential candidates will meet even earlier in the day, as Judge Taft has accepted an invitation to speak at Galesburg, Ill., Oct. 7, in the afternoon, and a committee of Galesburg citizens has been appointed to invite Mr. Bryan to be present both at the Galesburg and the Chicago banquets. Chairman Dixon said that it would be necessary for Mr. Taft to come from Galesburg to this city by special train.

"This talk that Judge Taft did not care to meet Mr. Bryan was all twaddle," said Mr. Dixon. "It did not look as if he could appear both at Galesburg and Chicago, and so I cancelled the Chicago engagement because Judge Taft already had one engagement for a Chicago speech on Oct. 7 opening the waterways convention in the forenoon. When I found that we could get him back from Galesburg by special train, I changed my mind about it."

As the program now stands Judge Taft will speak at the waterways convention at 11 a. m., catch a regular train to Galesburg, speaking at Lincoln-Douglas semi-centennial exercises at 6 p. m. and then return to Chicago for the banquet.

MAY HAVE COST THREE LIVES.

Gasoline Fire in the Navy Yard at Vallejo, Cal.

Vallejo, Cal., Sept. 21.—The gasoline fire in the navy yard Friday wherein Theodore May, a chief machinist, lost his life and several men were injured, is now believed to have cost three lives in all. Fred Martin, a gunboat boy and an Italian laborer, are missing, and there is every reason to believe that they perished in the water, into which they plunged when the flames surrounded the floating workshop containing nearly thirty men.

A naval board of inquiry has been appointed to investigate the accident. It is generally believed that a lighted match thrown into the water ignited a quantity of refuse gasoline afloat on the surface and the flames were communicated to several hundred gallons of the inflammable fluid which had been pumped out of the tanks of the submarines, Pike and Grampus, which were moored alongside the float. Of the score of men who sprang from the open platform into the water all were rescued with the exception of May, who could not swim, and possibly the boy and the Italian. Four of the men inside the Grampus pulled down the hatch and remained imprisoned until the fire was extinguished, suffering intensely from the heat, but escaping injury.

The fire caused a loss of about \$20,000. This includes the destruction of some valuable instruments, some damage to the submarine Pike and destruction of woodwork around the two tugs Fortune and Unadilla.

Whipped for Talking Too Much.

Nashville, Tenn., Sept. 21.—A report comes from Hickman, Tenn., to the effect that night riders called on J. W. Shaw at Samburg, Tenn., on Red Foot lake, and whipped him unmercifully a few nights ago for what they claim was talking too much. This is the locality in which, a few months ago, trouble was had with the Shabazzes. The people are greatly worked up over the matter.

To Protect Forests.

Montgomery, Ala., Sept. 21.—In line with the movement to protect the forests and the game, the Dallas county board of revenue has appropriated \$250 for the pay of the county warden, whose duty it is to enforce the laws. W. H. Craig, of Dallas, is one of the most progressive game wardens in the state. He is given great credit by State Game and Fish Commissioner John H. Wallace, Jr.

COSTS LIVES OF FOUR

Carelessness of 19-Year-Old Girl Hospital Nurse.

OTHER DEATHS MAY OCCUR

Patients in County Hospital at San Diego, Cal., Were Given Water Out of a Pitcher that Had Contained Atrophine—Nurse in State of Collapse.

San Diego, Sept. 21.—The carelessness of Mary Arthur, a young nurse at the county hospital, has cost the lives of four patients to date, and four others, who drank from a pitcher containing atrophine, are seriously ill. It is believed, however, that these will recover. The dead are: J. Young, Charles Kemp, August Fixley.

Miss Arthur, who is in a state of collapse, failed to confess her neglect until the poison had taken deadly effect.

According to her statement she left a solution of atrophine in the pitcher, which was later filled by some other person. After a short absence Miss Arthur administered the water to several patients and others helped themselves from the pitcher.

While an investigation has been made by the county authorities it has not yet been determined whether or not the nurse will be held legally responsible for the four deaths.

TWAIN WRITES TO BURGLARS.

Humorist Posts Characteristic Note on Door of His Home.

Redding, Conn., Sept. 21.—After hearing of the robbery on Thursday night of his residence here when two burglars looted the place of valuable silverware, Samuel L. Clemens (Mark Twain) indited the following characteristic note which he posted on the door of his residence:

"Notice! To the Next Burglar: There is nothing but plated ware in this house now, henceforth you will find it in that brass thing in the dining room over in the corner by the basket of kittens. If you want the basket, get the kittens in the brass thing. Do not make a noise, it disturbs the family. You will find rubbers in the front hall, by that thing which has umbrellas in it; chiffonier, I think they call it, or pergola, or something like that. Please close the door. Yours truly, S. L. Clemens."

SHIRLEY WILL SUBMIT PLAN.

Whereby Danger of Overbalancing of Aeroplanes Can Be Overcome.

Atlanta, Sept. 21.—As a result of the accident to the Wright aeroplane, Colonel A. P. Shirley, a widely known aeronautist, who has piloted balloons and airships in several international contests, has announced that he will submit to the government a plan whereby the danger of overbalancing the aeroplane can be overcome.

His theory will be worked through a series of levers which will throw certain planes on the ship in any direction desired should motor or fins become deranged.

Habersham to Have Fair.

Clarksville, Ga., Sept. 21.—The third annual fair under auspices of Habersham County Fair association will be held at this place on Sept. 29, 30, Oct. 1 and 2 and on the first day of October the annual reunion of the Fifty-second regiment, Georgia Volunteers will be held in the fair grounds, that day being designated as "Old Soldiers' Day."

Becomes Circulation Manager.

Waycross, Ga., Sept. 21.—Mr. O. J. Allen, of this city, has accepted the position of circulation manager of the Waycross Daily Journal. Mr. Allen is a newspaper man of several years' experience and his connection with the paper will no doubt prove acceptable to the subscribers and the management.

UNIVERSITY EXTENSION COURSES

FOR GAINESVILLE DURING 1908-09

As announced at the last commencement, the University offers the citizens of Gainesville the following courses of lectures for the year 1908-1909. These courses will be open to both sexes, and will be given at some central point in the city, and at such hours as will be most convenient to the lecturer and his hearers. The only conditions attaching to the work are:

First: At least eight hearers must register with the lecturer for regular attendance upon the given course.

Second: These hearers will be expected to do a certain amount of reading to be assigned by the lecturer in connection with each course.

Visitors may attend any lecture; but the courses will not be given without registration of eight regular hearers under the conditions here specified. Those who propose to become regular hearers may select the course or courses they choose to attend; and should then communicate with the lecturer offering the course and be regularly enrolled therefor.

The first course in each subject will be given at the rate of one lecture per week from October to January; the second course from February to May.

GRAND OPENING WAS MISS TEBEAU SCHOOL

Enrollment of Fifty-Seven Greet
Teachers at Opening.

OLDEST SCHOOL IN THE CITY

More Expected to Enter This High-
Grade Institution Within the Next
Few Days, as Places Have Been
Reserved for Several Pupils.

The opening of Miss Tebeau's
school on Monday was a grand suc-
cess for this popular institution,
which is in its thirty-fifth successful
year.

This school has always been con-
sidered one of the leading institutions
of the city and it has many graduates
throughout the State, who are proud
of the fact that they attended this
educational institution.

The school was originally founded
by Mrs. Thomas, but was taken in
charge by Miss Tebeau thirty-five
years since, and has been ably con-
ducted by this lady, together with the
assistance of Miss Alice Thomas, for
this length of time, and the large
enrollment attests the popularity of
the school and the high esteem in
which it and the instructors are held.

The enrollment for the first day
was fifty-seven, and this number will
be largely augmented within the next
few days, as places have already been
reserved for more out-of-town students
who will enter later.

Among the out-of-town students now
boarding there are Misses Louise Wil-
son, Kate Clyatt, Coleman and At-
water, while a number of boys are also
at the institution.

Arrested for Theft.

Frank Dansey, charged with the
theft of \$8 from a negro woman on
North Garden street, has been arrest-
ed and will be arraigned before Judge
Hanson on Friday afternoon at 2
o'clock. The defendant is represented
by Col. Evans Hall.

A GREAT DISCOVERY

Certain Ingredients That Really Grow
Hair When Properly Combined.

Resorcin is one of the most effec-
tive germ destroyers ever discovered
by science, and in connection with
Beta Naphthol, which is both germicidal
and antiseptic, a combination is form-
ed which destroys the germs which
rob the hair of its natural nourish-
ment, and also creates a clean, healthy
condition of the scalp, which prevents
the development of new germs.

Pilocarpin, although not a coloring
matter or dye, is a well-known in-
gredient for restoring the hair to its
natural color, when the loss of hair
has been caused by a disease of the
scalp.

These ingredients in proper combi-
nation, with alcohol added as a stimu-
lant and for its well-defined nourish-
ing properties, perfect the most ef-
fective remedy that is known for
scalp and hair troubles.

We have a remedy which is chief-
ly composed of these ingredients, in
combination with other extremely in-
valuable medicinal agents. We guar-
antee it to positively cure dandruff
and to grow hair; even though the
scalp in spots is bare of hair. If
there is any vitality in the roots, it
will positively cure baldness. If the
scalp has a glazed shiny appearance,
it's an indication that baldness is
permanent, but in every other in-
stance, baldness is curable.

We want everyone troubled with
scalp disease or loss of hair to try
Rexall "93" Hair Tonic. If it does
not cure dandruff and grow hair to
the satisfaction of the user, we will
without question or quibble return
every cent paid us for it. We print
this guarantee on every bottle. It
has effected a positive cure in 93 per
cent of cases where put to a practical
test.

Rexall "93" Hair Tonic is entirely
unlike, and in every particular better,
than anything else we know of for the
purpose for which it is prescribed.
We urge you to try this preparation at
our entire risk. Certainly we know
of no better guarantee to give you.

FUNERAL OF DR. MARSH.

Largely Attended by Friends Sunday
Afternoon at Sanatorium.

The funeral services of the late Dr.
C. F. Marsh, which were held at the
Sanatorium on Sunday afternoon,
were largely attended, considering the
inclemency of the weather.

The services were conducted by
Revs. T. P. Hay and S. B. Rogers,
while the music was rendered by the
choir of the Baptist church.

The remains were taken in charge
by the Thomas Undertaking Com-
pany, who will hold them until the fam-
ily get the business affairs closed up
and proceed to their future home in
Pensacola, where they will be in-
terred.

A Big Catch of Fish.

Dr. C. L. Carter, Morgan Fennell
and Ferd Bayer of this city and W.
A. Strickland of Paradise have re-
turned from Cedar Key, where they
report a most delightful trip. On
Saturday morning the party went on
a fishing trip to Corrigan's reefs,
where they caught 150 pounds of red
sea bass. Had the other members
of the party rose as early as our
friend Strickland the catch would
have been at least twice as large, but
it was impossible to get them out of
bed in time to reach the reefs so as
to take full advantage of the flood
tide, which affords the best time for
fishing. Morgan was the "low man"
on the morning trip, but in the after-
noon he was the only one to land a
fish. These reefs, which are only a
short distance from the dock, is one
of the best fishing grounds in the
State.

Have Arrived in City.

C. H. Coles and two sons have ar-
rived in the city and will make this
place their future home. Mr. Coles
comes from Sandwich, Ill., and will en-
gage in the jewelry business, having
leased the Miller building on the
north side of the square. He is a
brother-in-law of our fellow townsman,
Col. W. H. Palmer, and the citizens
generally welcome the family to the
city. His wife will arrive later, as
soon as he can make the necessary
arrangements.

OF INTEREST TO PATRONS.

Prof. Cassels Issues Important An-
nouncement Regarding High School.

The University High School will
open September the 28th. The faculty
is as follows: W. H. Cassels, princi-
pal; Miss Ida J. Franklin, English and
history; Miss Selma Shannon, mathe-
matics; Miss Ellen Wallace, Latin;
Mrs. W. P. Coffey, eighth grade; Miss
Anna DaCosta, seventh grade; Miss
Bessie Carver, sixth grade; Miss Belle
Mozely, fifth grade; Miss Cylla Ken-
nedy, fourth grade; Miss Fannie Mi-
zelle, third grade; Miss Florence
Balls, second grade; Miss Julia Ken-
nedy, first grade A; Miss Mabel
Sanchez, first grade B; Miss Hester
Titman, director of music. The fac-
ulty contains two more teachers than
it had last year, a music teacher and
an additional primary teacher. Three
of last year's faculty having resigned,
we shall have five new teachers this
session, the principal, the director of
music, Miss Franklin, Miss Mozely,
and Miss Mizelle. We have told of
the music teacher in a former article.
The other young ladies are well
qualified for the positions for which
they have been selected. They come
to us from the Jasper Normal, where
they taught last year with eminent
success. We are especially fortunate
in securing Miss Franklin as our first
assistant. She is a graduate of the
University of Tennessee and has tak-
en three summer courses preparing
herself to teach English and history.
She spent the past summer at the Un-
iversity of Virginia. Miss Franklin's
pupils and others who have seen her
work, claim that she has no superior
among the lady teachers of the State.

The other members of the faculty
are too well-and favorably known to
need mention.

It is desired to make the high
school department of the University
High School the strongest in the
State and bring it in close touch
with the University. The main pur-
pose of this is to enable those living
in other parts of the State, who do not
have the advantage of a good high
school, to come here to prepare for
entering the University. Such will be
charged a small tuition if they live
outside of Alachua county. Looking
to this end of correlating the High
School with the University, a course
of lectures will be given by members
of the University faculty during the
session, and Major Floyd has kindly
consented to conduct the laboratory
work in science. This is an advantage
that can not be too much appreciated
by the friends and patrons of the
High School.

All departments of the school will
be conducted in the original high
school building until the trustees can
fit up some rooms in the old academic
building of the E. F. S. When those
rooms are ready they will be occu-
pied by the primary department.
We shall try to arrange the work so
that there will be room for all who
may desire to enter.

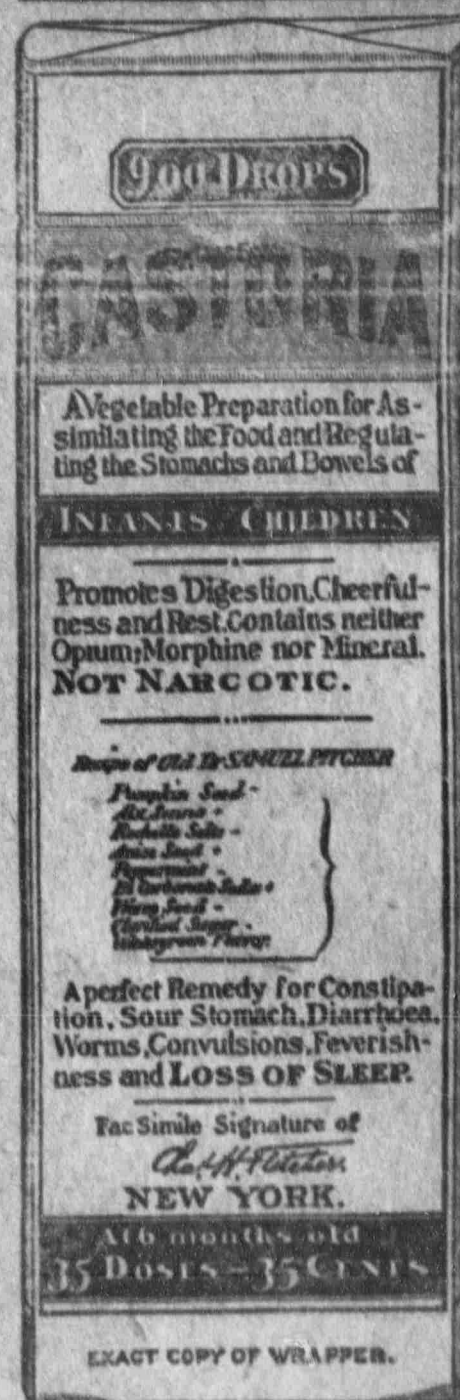

As some of the rooms may be
crowded, we desire that all pupils
shall appear at the school building on
the 24th or 25th. On those days the
principal and other members of the
faculty will be there between the
hours of 9 and 12 a. m. and 2 and
4 p. m. to assign pupils to seats, give
them a list of materials which they
will need, hold examinations, and as-
sign new pupils to their proper grades.
Only new pupils and such old pupils
as can give satisfactory evidence of
having made preparation during the
summer shall be entitled to an ex-
amination. W. H. CASSELS,
Principal.

Married in Suggy.

Rev. S. B. Rogers on Sunday per-
formed the ceremony which made Mr.
S. B. Folsom and Miss Sophia Crouch,
residents of North Gainesville, man
and wife. The young couple drove
up to the pastor's home and request-
ed him to perform the ceremony,
which was done while the couple re-
mained in their buggy.

A HUMAN ENGINE.

Without good fuel the 20th Century Limited
would travel little faster than a common yard
engine. It takes good fuel to develop power,
endurance and speed. Every ambitious man
is anxious to push forward, to get ahead, yet
many are "coasting up" on food prepared with
lard, regardless of the fact that lard is in-
digestible and really clogs up the system, just
as poor coal clogs the grates with clinkers.
Don't eat lard-cooked food; eat food prepared
with COTTLENE, a vegetable oil cooking
fat, so pure wholesome and easily digested
that physicians recommend it even for infa-
nts. "COTTLENE shortens your food,
lengthens your life" and you will travel
faster, further and easier on it than on food
prepared from the fat of the hog.

GET FAMILIAR WITH THESE.

As there will be a large number of Presidential Electors on the ballot at the election in November it behooves Democrats to become familiar with the Bryan electors, which are as follows:

For Presidential Electors:

H. P. BAILEY.
P. W. BUTLER.
ROBT. E. DAVIS.
GEO. C. MARTIN.
SAMUEL PASCO.

Paste this list in your hat, so that when you are asked who the Democratic electors are you may be prepared to give the desired information.

BRYAN AND KERN FUND

Following is the condition of The Sun's Bryan and Kern campaign fund as it now stands:

Previously acknowledged and remitted \$100.00

Eli Futch, Gainesville..... 1.00
J. W. Ettel, Gainesville..... 2.50
Let every one who can do so send in at least a dollar.

Send in your contribution for the Bryan and Kern campaign fund.

The courage to say "no" to an unpromising advertising proposition is as important as the courage to say "yes" to a good one.

"So much is a man worth as he esteems himself." True, too, of a store. And a store that "esteems" itself advertises accordingly.

A medical journal has published that a red nose is no sign of drunkenness. Still, as a prima facie indication, it will doubtless continue to be suggestive of hard drinking.

The Democrats are encouraged when the Republicans appear anxious, although experience should have taught them that just about that time the Republicans begin to do their best campaign work.

The sort of things you get interested in determine your success or failure. If you are really interested in the ads., and buy advertised things, it will do much to tip the scales in favor of prosperity.

Remember that the general election occurs on November 3rd. Democrats who found time to come out and vote in the May and June primaries can certainly spare as much time on general election day.

It is said that a Philadelphia policeman pursued a man three miles and captured him. No one can question his perseverance, but everyone, since it happened in Philadelphia, will understand the policeman's lack of speed.

It is said that Sir James Grant very much interested the learned members of the British Association of Science with a description of his machine for the renewal of youth. Sir James calls his machine the "neurostone." If he and the British scientists will come to America they will find that advertisements of similar fakes have been extant for at least thirty years.

South Africa is very far from the United States, nevertheless there are thousands of intelligent Americans who cannot but be interested in the fact that that wonderful, rich, and extensive region is now essentially and enthusiastically an English colony—a region where the English language will be spoken; where English institutions and civilization will prevail; a country where an American speaking but one language, as is the case with at least ninety-nine in a hundred, will be understood; and where he may travel and transact business with the same ease and confidence that he would in Canada or Australia. Six years have elapsed since the Boers surrendered at Pretoria, and these sturdy descendants of Dutchmen have in the last few years advanced from the primitive condition of peasants, such as existed in the world a hundred and fifty years ago, to a realization of the strenuous and advanced conditions of modern life. Autonomous government has been restored to them and a scheme for the union of the South African States similar to that which has recently been accomplished in Australia is under consideration. South Africa will probably be united within the coming year.

The President's letter to a friend in Montana, which has been published far and wide throughout the country suggests that the Republican party fears it may lose a big portion of the labor vote. The writing of political letters by Presidents in behalf of the candidates whom they wished to succeed them has few if any precedents in American history, but Mr. Roosevelt is an iconoclast as regards precedents, and it is predicted by many that he will not stop with writing letters, but will take the stump in person for his candidate. There is no reason why he should not take the stump. The whole country knows that he favors the election of Mr. Taft. The President discusses the candidate's attitude toward reforms, railroad and trust regulations and labor organizations, and he says: "There is no fight for decency and fair dealing which I have waged in which I have not had his heartiest and most effective sympathy and support, and the policies for which I stand are his policies as well as mine." That is just the reason the people will vote against Mr. Taft.

The case of the State of Florida against Claude L'Engle, editor of the defunct Tallahassee Sun, charged with criminal libeling John Graham, has again been postponed on motion of defendant's counsel. It was called in the county court of Polk county, at Bartow, last week, where a change of venue had been granted from Manatee county, but the defendant was not ready on account of the absence of "material witnesses," one of whom was Governor Broward, and a continuance was granted until the December term. It is the opinion of many persons that this case will never come to trial.

In the death of Dr. C. F. Marsh this city has lost a most valuable citizen. Though comparatively a new-comer, he had endeared himself to our people and was at the head of an enterprise which meant much for the future of Gainesville, and had he lived the Gainesville Haven Sanatorium would have become one of the leading institutions of the kind in this country. It is to be hoped that someone will be found to take Dr. Marsh's place as head of the enterprise who will manifest as much interest in it as he did.

ARRESTS FOLLOW DEATH.

Sensational Developments in the Lee County Assassination Case.

Columbus, Ga., Sept. 21.—The death of little ten year old Elbin Haden from the rifle wound and the arrest of Martin V. Culpepper, a merchant of Girard, on the charge of being the assassin, were Friday's developments in the sensational assassination attempt in Lee county, Alabama, when an effort was made to murder T. J. Haden, a farmer, at his home. The bullet missed him and struck the little girl standing in the hallway, and she died a few hours later from the wound.

A warrant was sworn out against Martin V. Culpepper, a merchant of Girard, charging him with doing the shooting. He and Haden, father of the dead child, married sisters, and the arrest caused profound sensation. It seems Haden and Culpepper had a personal difficulty in which Culpepper got the worst of it.

Culpepper asserts his innocence in the most emphatic manner, and seems to have established a complete alibi, as he shows that he was at his store about the time the assassination occurred.

ROBBED BY HIGHWAYMEN.

Negroes Hold Up Farmer and Rob Him of His Cotton Money.

Dublin, Ga., Sept. 21.—Two negroes have been arrested in this county charged with having held up and robbed E. M. Wood on the public road.

Mr. Wood was returning home from Dublin and he had in his pockets \$366 which he had obtained from the sale of cotton. The night was very dark and when he reached a lonely spot on the edge of a swamp negroes suddenly jumped into the road and ordered him to stop and give up his money.

Mr. Wood hesitated, and one of the negroes pulled him out of his wagon, choked him and rifled his pockets. They then ran. Bloodhounds were secured and Officer Renfro, with a large posse, soon found the two negroes and brought them to the county jail. The money has not yet been found.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

YOR DAVIS HAS A VERY BUSY MONDAY

Cases Before His Honor at the Regular Matinee.

WOMEN MUST STAY CLOSE

Most Interesting Case Was Dismissed, Owing to the Mayor Not Having Jurisdiction—Party Was Charged With Stealing Money.

It doesn't seem that my punishment by fining you fellows, does any good and I am going to put you in jail and make you work the streets as a thing of crossing the line is crossed."—Mayor Davis to the men.

James, fully as bad as his brother, and whom it was necessary for Mayor Owens to show that he could not the Jesse he played, forfeited a bond of \$10 for disorderly conduct.

Charles Gass, charged with fighting, was arrested by Policeman Zetrouer, fined \$5 and costs or ten days in the streets. He paid the fine.

Wilson, crossing the dead line at the depot, and arrested by Police Zetrouer, was given just \$10 and twenty days on the streets. He was very zealous in trying to tell Mayor how it happened, when the mayor spoke up and settled the matter with the mayor.

Harry Beasley, arrested by Police Owens, the man that wanted to charge of disorderly conduct, and Mayor was lenient with him on account—\$5 and costs.

Frank Dansey, charged with disorderly conduct and arrested by Police Zetrouer, was discharged, owing to insufficient evidence. It developed that the case was one for the authorities, the mayor having jurisdiction, it having developed the charge was really larceny of \$10.

JOHN DISLIKES CHICKENS.

Floridian Again "Rubs It In" on Gainesville's Former Mayor.

John Bartleson is piping mad just because we told that story about him with carpet tacks.

Well, if he won't speak to us, we make him read what we have to say and we are going to tell you why we don't like chicken.

Two years ago—before the coming of tacks as an improvised clock—he was especially careful in removing his shoes and noise opening the front door. He was in splendid progress, but just as he closed the door behind him a chicken in Springfield began to crow. "Was then he heard his little daughter innocently ask: "Mama, are all those chickens crowing?" And it was then, too, that "Mama" fell—not as the people who looked upon his own feet—because he heard that cruel, crushing: "Oh, go on back to sleep! You are only celebrating the 'home' of your father!"

That day to this, John has no more chicken. No, not even a hen!—Jacksonville Floridian.

There are many cheaper ways of getting rid of dandruff, but as a rule the one who has an automobile doesn't care for the expense.

WASHING WITHOUT WATER

Trying to Get Rid of Dandruff Without Herpicide.

You ever see any one trying to wash their hair without soap or shampoo?

What would you say of a man who tried to wash his hair without soap or shampoo?

Every one is foolish to try to get rid of dandruff and to prevent baldness by using the germicidal which cause the hair to fall out. Vaseline, Glycerine, and other substances which form a protective film over the hair, are the only safe and effective remedies for dandruff.

Herpicide is successful because it kills the parasite which causes the hair to fall out. It is the only safe and effective remedy for dandruff.

NOT A PARTICLE OF SKIN ON BODY

Worst Case of Eczema Doctor Had Seen in 40 Years—For Six Months Father Expected His Baby to Die—Blood Oozed Out All Over Her Body—Had to Be Wrapped in Silk and Carried on a Pillow—Now She Is Perfectly Cured.

DOCTOR RECOMMENDED CUTICURA REMEDIES

"My little girl was born two weeks before her time and my wife died four hours after the birth of our child and I had to raise the baby on artificial foods. Six months after birth she broke out and I had two doctors in attendance. There was not a particle of skin left on her body, the blood oozed out just anywhere, and we had to wrap her in silk and carry her on a pillow for ten weeks. She was the most terrible sight I ever saw, and for six months I looked for her to go to her mama, but thank God and his agents, she is alive and well to-day and she will be three years old the seventh of December and has never had a sign of the dread trouble since."

"I used every known remedy to alleviate her suffering, for it was terrible to witness. Dr. C. gave her up and then I went to C. F. and got Dr. B. and he and Cuticura Soap and Cuticura Ointment saved her. He recommended the Cuticura Remedies, or said we were right in making use of them. As nearly as I can remember, we used eight cakes of Cuticura Soap and three boxes of Cuticura Ointment; but you must take into consideration that hers was an exceptional case, for an old and good doctor said that it was the worst case that had come to him in forty years. I have always hinged on Cuticura Soap to keep her skin soft and to give her a pure complexion. James J. Smith, Wood and Metal Pattern Maker, Box 234, Buena Vista, Va., Oct. 14 and 22, 1906."

Complete External and Internal Treatment for Every Humor of Infants, Children and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.) in the form of Chocolate Coated Pills (25c. per vial of 60) to Purify the Blood. Whitefly Control by Fungi

By E. W. Berger, Florida Agricultural Experiment Station.

There is still time during September in which to introduce fungus. The earlier this is done, the better. For introducing fungus use the method of spraying the spores (germs) of the fungus mixed in water against the under surfaces of the whitefly-infested leaves. Several trees treated with the red Aschersonia by this method at DeLand on April 21 and 22, 1908, had nearly half of the whitefly larvae on them infected and dead by the middle of the following June. Other trees treated in the same way and with the same fungus at New Smyrna on Nov. 29, 1907, showed similar results by the twenty-first of August of this year. Other experiments have not been equally successful. In some instances the causes of failure are not well understood; in others it was doubtless due to the extreme drought. There are, however, only one or two instances in which the writer failed to get any growth of fungus at all, when good fresh material was used between the dates of April 21 and November 29.

When to Apply the Fungi—It is at those times when the larvae are young (first, second, and third stages) and abundant, that the fungus can be most readily started. For some time past young larvae of the first, second, and third stages have been abundant in whitefly-infested trees, and they will continue to be more or less abundant until about the end of November. It should, therefore, be an easy matter to start a growth of fungus now. Fungus can be introduced at any time from about April till November; except perhaps during a brief period in May or June, just before the issuing of the second brood of adult whiteflies. At that period so many of the larvae would be in the fourth and fifth stages, when they appear to be immune to infection by fungus, that little success might be attained. December, January, February and March are not favorable for the introduction of fungus, probably because the larvae of the whitefly are then almost all in the fourth or fifth stages.

Precautions to Be Taken—Use fungus which is well matured. This

WITH KNIFE CATHCART CUTS DANSBY

Trouble Occurred When The Men Met At Wade Last Sunday.

TWO MEN HAD BEEN AT OUTS

Catchcart, it is Alleged, Followed Dansby and Kept Slashing Him With Dangerous Knife—Trial to Occur Today at High Springs.

The little mining town of Wade, in the western part of the county, was the scene of a serious cutting affray on Sunday, when two of the leading farmers of that section met in one of the stores at that place.

The two men have had an old grudge against each other for years, and meeting for the first time Sunday, when it is alleged, both were full of bad whiskey, made at each other with their knives.

It is reported that after Cathcart had gotten the best of his enemy, and who was on the run, he was followed and several more serious cuts added to the body of Dansby.

Dansby is in a very serious condition from the wounds sustained in the battle and fears are entertained for his recovery, although the attending physician, Dr. Getzen, thinks he will be able to survive, provided blood poison does not set in.

Catchcart has been arrested and is now confined in the city jail at High Springs awaiting his preliminary hearing before Judge M. A. Bexley at that place today.

Both men are well known throughout that country as being industrious hard-working farmers, with families dependent upon them, and the affair is deeply regretted by their numerous friends.

A gun club has been organized at Lakeland. The chief aim of the club will be to prevent the killing of game out of season.

SCHOOL GIRLS

Most of our ambitious young American girls work too hard at school.

Many teachers have little or no judgment about pushing a child beyond her endurance. They ought to know that girls especially have a danger period. Often, too often, utter physical collapse is the result, and it takes years and years to recover lost vitality.

Many a young girl has been helped over this critical period, and been prepared for a healthy womanhood by

white wings with a smoky-colored area visible towards the end of each forewing, when these are viewed as they lie folded on the back of the insect. These distinctive characters can be made out by the use of hand magnifier. The red Archersonia and the brown fungus are known to thrive on species A, but will also grow, to some extent at least, on species B.

If there is any doubt in regard to which species is present, send specimens to the Experiment Station for identification. It is important to know which species is being dealt with, in order to know which fungus to use.

The courage to say "no" to an unpromising advertising proposition is as important as the courage to say "yes" to a good one.

"So much is a man worth as he esteems himself." True, too, of a store. And a store that "esteems" itself advertises accordingly.

A medical journal has published that a red nose is no sign of drunkenness. Still, as a prima facie indication, it will doubtless continue to be suggestive of hard drinking.

The Democrats are encouraged when the Republicans appear anxious, although experience should have taught them that just about that time the Republicans begin to do their best campaign work.

The sort of things you get interested in determine your success or failure. If you are really interested in the ads., and buy advertised things, it will do much to tip the scales in favor of prosperity.

Remember that the general election occurs on November 3rd. Democrats who found time to come out and vote in the May and June primaries can certainly spare as much time on general election day.

It is said that a Philadelphia policeman pursued a man three miles and captured him. No one can question his perseverance, but everyone, since it happened in Philadelphia, will understand the policeman's lack of speed.

It is said that Sir James Grant very much interested the learned members of the British Association of Science with a description of his machine for the renewal of youth. Sir James calls his machine the "neurostone." If he and the British scientists will come to America they will find that advertisements of similar fakes have been extant for at least thirty years.

South Africa is very far from the United States, nevertheless there are thousands of intelligent Americans who cannot but be interested in the fact that that wonderful, rich and extensive region is now essentially and enthusiastically an English colony—a region where the English language will be spoken; where English institutions and civilization will prevail; a country where an American speaking but one language, as is the case with at least ninety-nine in a hundred, will be understood; and where he may travel and transact business with the same ease and confidence that he would in Canada or Australia. Six years have elapsed since the Boers surrendered at Pretoria, and these sturdy descendants of Dutchmen have in the last few years advanced from the primitive condition of peasants, such as existed in the world a hundred and fifty years ago, to a realization of the strenuous and advanced conditions of modern life. Autonomous government has been restored to them and a scheme for the union of the South African States similar to that which has recently been accomplished in Australia is under consideration. South Africa will probably be united within the coming year.

The President's letter to a friend in Montana, which has been published far and wide throughout the country, suggests that the Republican party fears it may lose a big portion of the labor vote. The writing of political letters by Presidents in behalf of the candidates whom they wished to succeed them has few if any precedents in American history, but Mr. Roosevelt is an iconoclast as regards precedents, and it is predicted by many that he will not stop with writing letters, but will take the stump in person for his candidate. There is no reason why he should not take the stump. The whole country knows that he favors the election of Mr. Taft. The President discusses the candidate's attitude toward reforms, railroad and trust regulations and labor organizations, and he says: "There is no fight for decency and fair dealing which I have waged in which I have not had his heartiest and most effective sympathy and support, and the policies for which I stand are his policies as well as mine." That is just the reason the people will vote against Mr. Taft.

The case of the State of Florida against Claude L'Engle, editor of the defunct Tallahassee Sun, charged with criminal libeling John Graham, has again been postponed on motion of defendant's counsel. It was called in the county court of Polk county, at Bartow, last week, where a change of venue had been granted from Manatee county, but the defendant was not ready on account of the absence of "material witnesses," one of whom was Governor Broward, and a continuance was granted until the December term. It is the opinion of many persons that this case will never come to trial.

In the death of Dr. C. F. Marsh this city has lost a most valuable citizen. Though comparatively a new-comer, he had endeared himself to our people and was at the head of an enterprise which meant much for the future of Gainesville, and had he lived the Gainesville Haven Sanatorium would have become one of the leading institutions of the kind in this country. It is to be hoped that someone will be found to take Dr. Marsh's place as head of the enterprise who will manifest as much interest in it as he did.

Sensational Developments in the Lee County Assassination Case.

Columbus, Ga., Sept. 21.—The death of little ten year old Edwin Haden from the rifle wound and the arrest of Martin V. Culpepper asserts his innocence in the most emphatic manner, and seems to have established a complete alibi, as he shows that he was at his store about the time the assassination occurred.

ROBBED BY HIGHWAYMEN.

Negroes Hold Up Farmer and Rob Him of His Cotton Money.

Dublin, Ga., Sept. 21.—Two negroes have been arrested in this county charged with having held up and robbed E. M. Wood on the public road.

Mr. Wood was returning home from Dublin and he had in his pockets \$300 which he had obtained from the sale of cotton. The night was very dark and when he reached a lonely spot on the edge of a swamp negroes suddenly jumped into the road and ordered him to stop and give up his money.

Mr. Wood hesitated, and one of the negroes pulled him out of his wagon, choked him and rifled his pockets. They then ran. Bloodhounds were secured and Officer Renfro, with a large posse, soon found the two negroes and brought them to the county jail. The money has not yet been found.

Most Interesting Case Was Disposed, Owing to the Mayor Not Having Jurisdiction—Party Was Charged With Stealing Money.

It doesn't seem that my punishment by fining you fellows, does any good and I am going to put you in jail to make you work the streets out of crossing the line is stopped."—Mayor Davis to the men.

James, fully as bad as his brother and whom it was necessary for Mayor Owens to show that he was the Jesse he played, forfeited a bond of \$10 for disorderly conduct.

Wass, charged with fighting and arrested by Policeman Zetrouer, paid \$5 and costs or ten days in jail. He paid the fine.

Wilson, crossing the dead line at depot, and arrested by Police Zetrouer, was given just \$10 and twenty days on the streets.

Very zealous in trying to tell Mayor how it happened, when the Mayor spoke up and settled the matter with the mayor.

Beasley, arrested by Police Owens, the man that wanted to Porter's quarters, plead guilty to charge of disorderly conduct, and Mayor was lenient with him on account—\$5 and costs.

John Dansey, charged with disorderly conduct and arrested by Police Zetrouer, was discharged, owing to insufficient evidence. It developed that the case was one for the authorities, the Mayor having jurisdiction, it having developed the charge was really larceny of

JOHN DISLIKES CHICKENS.

Floridian Again "Rubs It In" on Gainesville's Former Mayor.

John Bartleson is piping mad just because we told that story about him with carpet tacks.

If he won't speak to us, we make him read what we have to say and we are going to tell now why he doesn't like chicken.

Two years ago—before the tacking of tacks as an improvised clock—he was especially cautious removing his shoes and noise opening the front door. He was splendid progress, but just as he closed the door behind him chicken in Springfield began to

"Was then he heard his little sister innocently ask: 'Mama, are all those chickens crowing?' And it was then, too, that 'Mama' fell—not as the pea who looked upon his own feet—because he heard that cruel, crushing: 'Oh, go on back to sleep! you are only celebrating the 'home' of your father!'"

That day to this, John has no more chicken. No, not even a chicken!—Jacksonville Floridian.

ing piles provoke profanity, but they won't cure them. Doan's cures itching, bleeding or itching piles after years of suffering at any drug store.

There are many cheaper ways of getting rid of hemorrhoids, but as a rule the one who has an automobile doesn't mind the expense.

WASHING WITHOUT WATER

Trying to Get Rid of Dandruff Without Herpicide.

You ever see any one trying to wash their hair without soap or shampoo? What would you say of

seeing an old fellow try to get rid of dandruff and prevent balding by using the same which cause dandruff, Tanglefoot, Glycerine, and other substances which form the ingredients of most so-called hair washes.

Herpicide is successful because it attacks and kills the parasite which lives on the hair roots. It is the original and only genuine hair wash manufactured.

The better the hair, the better the hair. Send for the sample to The Herpicide Co., 101 N. 1st St., St. Louis, Mo.

NOT A PARTICLE OF SKIN ON BODY

Worst Case of Eczema Doctor Had Seen in 40 Years—For Six Months Father Expected His Baby to Die—Blood Oozed Out All Over Her Body—Had to Be Wrapped in Silk and Carried on a Pillow—Now She Is Perfectly Cured.

DOCTOR RECOMMENDED CUTICURA REMEDIES

"My little girl was born two weeks before her time and my wife died four hours after the birth of our child and I had to raise the baby on artificial foods. Six months after birth she broke out and I had two doctors in attendance. There was not a particle of skin left on her body, the blood oozed out just anywhere, and we had to wrap her in silk and carry her on a pillow for ten weeks. She was the most terrible sight I ever saw, and for six months I looked for her to go to her mama, but thank God and his agents, she is alive and well to-day and she will be three years old the seventh of December and has never had a sign of the dread trouble since."

"I used every known remedy to alleviate her suffering, for it was terrible to witness. Dr. C gave her up and then I went to C—E—and got Dr. B—and he and Cuticura Soap and Cuticura Ointment saved her. He recommended the Cuticura Remedies, or said we were right in making use of them. As nearly as I can remember, we used eight cakes of Cuticura Soap and three boxes of Cuticura Ointment; but you must take into consideration that hers was an exceptional case, for an old and good doctor said that it was the worst case that had come to him in forty years. I have always hinged on Cuticura Soap to keep her skin soft and to give her a pure complexion. James J. Smith, Wood and Metal Pattern Maker, Box 234, Buena Vista, Va., Oct. 14 and 22, 1906."

Complete External and Internal Treatment for Every Humor of Infants, Children and Adults consists of Cuticura Soap (25c) to Cleanse the Skin, Cuticura Ointment (50c) to Heal the Skin, and Cuticura Resolvent (50c) (in the form of Chocolate Coated Pills 25c per vial of 60) to Purify the Blood. Sold throughout the world. Foster Drug & Chemical Co., Sole Proprietors, Boston, Mass.

Whitefly Control by Fungi

By E. W. Berger, Florida Agricultural Experiment Station.

There is still time during September in which to introduce fungus. The earlier this is done, the better. For introducing fungus use the method of spraying the spores (germs) of the fungus mixed in water against the under surfaces of the whitefly-infested leaves. Several trees treated with the red Aschersonia by this method at DeLand on April 21 and 22, 1908, had nearly half of the whitefly larvae on them infested and dead by the middle of the following June. Other trees treated in the same way and with the same fungus at New Smyrna on Nov. 29, 1907, showed similar results by the twenty-first of August of this year. Other experiments have not been equally successful. In some instances the causes of failure are not well understood; in others it was doubtless due to the extreme drought. There are, however, only one or two instances in which the writer failed to get any growth of fungus at all, when good fresh material was used between the dates of April 21 and November 29.

When to Apply the Fungi—It is at those times when the larvae are young (first, second, and third stages) and abundant, that the fungus can be most readily started. For some time past young larvae of the first, second, and third stages have been abundant in whitefly-infested trees, and they will continue to be more or less abundant until about the end of November. It should, therefore, be an easy matter to start a growth of fungus now. Fungus can be introduced at any time from about April till November; except perhaps during a brief period in May or June, just before the issuing of the second brood of adult whiteflies. At that period so many of the larvae would be in the fourth and fifth stages, when they appear to be immune to infection by fungus, that little success might be attained. December, January, February and March are not favorable for the introduction of fungus, probably because the larvae of the whitefly are then almost all in the fourth or fifth stages.

Precautions to Be Taken—Use fungus which is well matured. This

WITH KNIFE CATCH-CART CUTS DANSBY

Trouble Occurred When The Men Met At Wade Last Sunday.

TWO MEN HAD BEEN AT OUTS

Catchcart, it is Alleged, Followed Dansby and Kept Slashing Him With Dangerous Knife—Trial to Occur Today at High Springs.

The little mining town of Wade, in the western part of the county, was the scene of a serious cutting affray on Sunday, when two of the leading farmers of that section met in one of the stores at that place.

The two men have had an old grudge against each other for years, and meeting for the first time Sunday, when it is alleged, both were full of bad whiskey, made at each other with their knives.

It is reported that after Catchcart had gotten the best of his enemy, and who was on the run, he was followed and several more serious cuts added to the body of Dansby.

Dansby is in a very serious condition from the wounds sustained in the battle and fears are entertained for his recovery, although the attending physician, Dr. Getzen, thinks he will be able to survive, provided blood poison does not set in.

Catchcart has been arrested and is now confined in the city jail at High Springs awaiting his preliminary hearing before Judge M. A. Bexley at that place today.

Both men are well known throughout that country as being industrious hard-working farmers, with families dependent upon them, and the affair is deeply regretted by their numerous friends.

A gun club has been organized at Lakeland. The chief aim of the club will be to prevent the killing of game out of season.

SCHOOL GIRLS

Most of our ambitious young American girls work too hard at school.

Many teachers have little or no judgment about pushing a child beyond her endurance. They ought to know that girls especially have a danger period. Often, too often, utter physical collapse is the result, and it takes years and years to recover lost vitality.

Many a young girl has been helped over this critical period, and been prepared for a healthy womanhood by

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Miss Elsie L. Hook, of Chelsea, Vt., writes to Mrs. Pinkham:

"I am only sixteen years old, but I want to tell you that Lydia E. Pinkham's Vegetable Compound and your advice cured me of sideache, periodic pains and sleeplessness, also of a nervous, irritable condition after everything else had failed, and I want to thank you for it."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

white wings with a smoky-colored area visible towards the end of each forewing, when these are viewed as they lie folded on the back of the insect. These distinctive characters can be made out by the use of hand magnifier. The red Aschersonia and the brown fungus are known to thrive on species A, but will also grow, to some extent at least, on species B.

If there is any doubt in regard to which species is present, send specimens to the Experiment Station for identification. It is important to know which species is being dealt with, in order to know which fungus to use.

For more detailed information write to the Experiment Station at Gainesville for Bulletin 88, and for Press Bulletins 80, 82 and 88.

Miss Carro Liddon of Ocala, who has been spending the past two weeks in the city, visiting her sister, Mrs. Dr. J. M. Dell, Jr., returned to her

Of Interest To Women

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeon's knife, would it be believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended. A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

home in the Brick City yesterday. During her short sojourn here she made many friends who will be pleased to again see her visit this city.

J. A. Phifer has returned from the Northern markets, where he has been for the past few weeks purchasing fall and winter goods for the popular stores of Phifer Bros., and the Phifer-Morris Co. While away he secured many bargains that will be offered the public later through the columns of this paper.

J. L. Lee and family, who have been making their home in this city for the past three months, departed yesterday for Jasper, where they will in future reside. Mr. Lee is a lawyer by profession and came here to locate permanently, but after thoroughly testing the field decided he could do better at Jasper.

Chas. E. Halle, one of the prominent business men of Live Oak and a former resident of this county, who has been visiting relatives in the city for the past few days, returned to his home yesterday. He says that a great deal of cotton is being purchased in the Live Oak market and that the city presents a lively appearance.

Mrs. Jacob Farlinsky and little daughter, Sarah, of St. Augustine, who have been in the city for the past week visiting the family of Mrs. S. E. Plakoson, departed yesterday for Live Oak, where they will visit before proceeding to their home. This is Mrs. Farlinsky's first visit to the city in fourteen years, and she was delighted with the great changes and said she was almost tempted to remove from the Ancient City and again take up her residence in her old home.

A REMOVAL

and—THE REASON

This is to notify the public that we have removed our stock of Crockery, China and Glassware from the Graham building, 116 East Main street N., to our main stores, 120 E. Liberty street, where the entire upper floor will be devoted to this department.

This move will concentrate our business, and at the same time materially decrease our expenses. Taking into consideration these facts does it not look reasonable that we will now be in a position to sell this line at greatly reduced prices? That's the reason.

Come to our store, visit this department, and we will take pleasure in showing you the handsomest and most complete line ever seen in this town.

S.S.S. BAD BLOOD FOR

When bad blood is caused from an infection of the circulation by virus of Contagious Blood Poison, it usually shows in the form of ulcers, mouth and throat, copper-colored splotches on the body, swollen glands, the groin, falling hair, sores and ulcers, etc. These general symptoms affecting all parts of the body, show how deeply poisoned the becomes, and emphasizes the dangerous character of the trouble. If allowed to remain in the system the disease will finally wreck the health and bring down the strongest constitution. No medicine can cure Contagious Blood Poison which does not rid the circulation of every particle of the virus. S. S. S. is the one real and certain cure; it goes down to the very bottom of the trouble, and by removing every trace of the poison, and adding healthful qualities to the blood, forever cures this powerful disorder. S. S. S. is the most reliable of all blood purifiers, and its concentrated ingredients healthful vegetable extracts and juices especially adapt it to curing insidious trouble. Write for our home treatment book, which is a valuable aid in the treatment of the different stages of the disease, and ask for special medical advice you wish. No charge for either.

A WARNING

I have learned that certain persons are representing themselves as agents, and taking orders for pictures, claiming I will furnish some cases the pictures given have been lost—pictures of the which cannot be replaced. I, agents, never did, and now I deal directly with my pictures all work. I cannot afford to be agent out of the prices I charge the high-grade work I do. By enlarging to me and you are insured against loss of the pictures but will have a guarantee of likeness and an artistic finish. SMITH'S STUDIO, Gainesville.
